

The diagram illustrates a cross-section of a roof structure. It shows several dark grey rafters forming a gable. A horizontal beam or ridge is positioned between the rafters. A white rectangular box with the text "makes a gap" is placed over the ridge. A curved arrow points from the text to a small gap between the ridge and the rafters. Below the roof, a yellow interior space is visible, featuring a large arched window and other rectangular openings. The background is a light blue-grey color.
