

⑤ add witness lines to standard 'Rebar' - IE not path reinforcement or alternatively change path reo cog type to:
 See ⑥

⑥ change hook types to be 'Z' bar ie

- ① make leader lighter
- ② make witness line extension darker/heavier
- ③ offset bar & witness line extension from boundary line
- ④ change direction of top bar to cog down/right (hook orientation says down, & is drawn down in 3D but not 2D).
