Linked File	Status	Reference Type	Locations Not Saved	Saved Path	Path Type	Local Alias
IDC08675_AR	Loaded	Overlay	<input type="checkbox"/>	\\USWSH5FP001\USWSH5\Regul	Relative	M:\Regulated\DESIGN\60095964\110

The other office's server address. Their version of the work references our model and behaves the same way by putting OUR server address here.

Our local address for where the file is located. This is the same on both offices as our folder structure is the same.
